

**ANEXO IV.B - LISTADO DE REPUESTOS - TERCER LOTE**

| No.                            | Designation  | Material Number | Systems  | Quantity | Unit |
|--------------------------------|--|-----------------|--|----------|------|
| <b>I. Listado de Repuestos</b> |  |                 |  |          |      |
| 1                              | Centrifugal blower                                     | M000004197332   | Traction auxiliary converter                   | 1        | PC   |
| 2                              | Traction auxiliary converter                           | M000004040035   | Traction auxiliary converter                   | 1        | PC   |
| 3                              | Controller   | M000004149389   | Controller                                     | 2        | PC   |
| 4                              | Air conditioning unit of Passenger compartment         | M000004132773   | Air conditioning unit of Passenger compartment | 1        | PC   |
| 5                              | Driver's Cab air-conditioning unit                     | M000004132775   | Driver's Cab air-conditioning unit             | 2        | PC   |
| 6                              | Transmission mechanism                                 | M000004186845   | Passenger compartment side door                | 2        | PC   |
| 7                              | Door leaf hanging bracket assy., as drawn              | M000004186826   | Passenger compartment side door                | 2        | PC   |
| 8                              | Door leaf hanging bracket assy., image reversed        | M000004186827   | Passenger compartment side door                | 2        | PC   |
| 9                              | Left-handed rotation screw assy.                       | M000004186828   | Passenger compartment side door                | 4        | PC   |
| 10                             | Right-handed rotation screw assy.                      | M000004186829   | Passenger compartment side door                | 4        | PC   |
| 11                             | Motor  | M000004186831   | Passenger compartment side door                | 4        | PC   |
| 12                             | Synchronized belt                                      | M000002180360   | Passenger compartment side door                | 4        | PC   |
| 13                             | Belt pulley  | M000002860877   | Passenger compartment side door                | 4        | PC   |
| 14                             | Belt pulley  | M000002860876   | Passenger compartment side door                | 4        | PC   |
| 15                             | Master door controller                                 | M000004186832   | Passenger compartment side door                | 4        | PC   |
| 16                             | Travel switch  | M000000719388   | Passenger compartment side door                | 6        | PC   |
| 17                             | Microactive switch                                     | M000001826976   | Passenger compartment side door                | 4        | PC   |
| 18                             | Circuit breaker  | M000004186839   | Passenger compartment side door                | 4        | PC   |
| 19                             | Electrical key switch                                  | M000004186833   | Passenger compartment side door                | 4        | PC   |
| 20                             | Switch assy., as drawn                                 | M000002392379   | Passenger compartment side door                | 4        | PC   |
| 21                             | Switch assy., image reversed                           | M000002392380   | Passenger compartment side door                | 4        | PC   |
| 22                             | Roller (balance roller)                                | M000004057420   | Passenger compartment side door                | 4        | PC   |
| 23                             | Sealing strip  | M000004186835   | Passenger compartment side door                | 4        | PC   |
| 24                             | Sealing strip  | M000004186836   | Passenger compartment side door                | 4        | PC   |
| 25                             | Door glazing   | M000004186838   | Passenger compartment side door                | 4        | PC   |
| 26                             | Nylon roller   | M000002401569   | Passenger compartment side door                | 4        | PC   |
| 27                             | Buffer block   | M000004186844   | Passenger compartment side door                | 4        | PC   |
| 28                             | End unlock mechanism                                   | M000004186830   | Passenger compartment side door                | 4        | PC   |
| 29                             | Driving cab speaker                                    | M000004150019   | PIS System                                     | 2        | PC   |
| 30                             | Broadcasting control box                               | M000004150026   | PIS System                                     | 2        | PC   |
| 31                             | Driving cab camera                                     | M000004150023   | PIS System                                     | 4        | PC   |
| 32                             | Destination Display                                    | M000004150016   | PIS System                                     | 4        | PC   |
| 33                             | Passenger emergency alarm                              | M000004150021   | PIS System                                     | 4        | PC   |
| 34                             | Passenger compartment speaker                          | M000004150020   | PIS System                                     | 2        | PC   |
| 35                             | Noise detector   | M000004150014   | PIS System                                     | 4        | PC   |
| 36                             | Passenger compartment camera                           | M000004150022   | PIS System                                     | 2        | PC   |
| 37                             | Driving cab front end camera                           | M000004150024   | PIS System                                     | 2        | PC   |
| 38                             | Driver's face recognition camera                       | M000004150025   | PIS System                                     | 2        | PC   |
| 39                             | Microphone   | M000004222642   | PIS System                                     | 4        | PC   |
| 40                             | Hard disk  | M000004222311   | PIS System                                     | 2        | PC   |
| 41                             | Passenger counter terminal                             | M000004227332   | PIS System                                     | 2        | PC   |
| 42                             | Dynamic map LCD display (43 inch)                      | M000004150018   | PIS System                                     | 3        | PC   |
| 43                             | Passenger compartment LCD Display (32 inch) - handrail | M000004381886   | PIS System                                     | 1        | PC   |
| 44                             | EGWM module  | M000004044017   | Network system                                 | 2        | PC   |
| 45                             | Monitor  | M000004142648   | Network system                                 | 2        | PC   |
